

00000031 @ 601 + 1*n, n=0..698

A diagram illustrating a memory address calculation. On the left, the hexadecimal value "00000031" is enclosed in a thick black oval. To the right of the oval, the text "@ 601 + 1*n, n=0..698" is displayed. A curved arrow originates from the right side of the oval and points towards the text, indicating that the value inside the oval is the result of the calculation.
